

# Pre-Purchase Evaluations

## StandardAero Provides:

- Protection from hidden or undisclosed discrepancies
- An experienced independent third-party analysis for fair and informed negotiation
- A record of technical assessment of condition and maintenance needs

## Why select StandardAero for your Pre-Purchase Evaluation?

- We are the experts, with years of experience on most major airframes and engines.
- We have the ability to assist with aircraft import and export.
- Our Standard Evaluation checklists helps you define your needs
- Pre-Purchase Evaluation can be combined with other necessary calendar or hourly inspections to reduce downtime and redundant labor.
- Locations throughout the U.S.
- Factory Authorized and Certified on most airframes and engines.

**StandardAero's structured and thorough Pre-Purchase Evaluation minimizes the risk associated with unknown or undisclosed airframe and engine conditions for the buyer.**

**Our Pre-Purchase Evaluation is designed to help you make an informed aircraft purchase or sale decision by providing the authorizing party with a detailed list of discrepancies and thorough records review, backed by our years of experience in evaluating business aircraft.**

**To speed the process and avoid delays, StandardAero recommends.**

- Contact StandardAero early in the aircraft purchase transaction to schedule your pre-buy
- Define the required evaluation work scope
- Establish a clear communication channel to obtain proposals and all required documents prior to input

**Big experience through personal service.**

Whether you are buying, selling or operating an aircraft, StandardAero's Asset Management services are there to help you optimize your asset value.
