More Support. More Service. More Capability.

StandardAero – The Right Choice

General Electric Authorized LM1600 Service Provider, StandardAero is your one stop for LM1600 service and support. Our certified technicians give you the most comprehensive, experienced service in the industry.

Customized Solutions

Through our years of service experience, we know that every customer is unique, and our philosophy allows you to benefit from a customized maintenance solution that guarantees turbine availability with predictable maintenance costs.

We're There When You Need Us

Our rapid response teams are available 24 hours a day, 7 days a week to provide emergency and troubleshooting support, lease engines, modules and accessories. Our Field Service Representatives can be on site anywhere in the world within 24 - 48 hours.

We Reign in Spain

Located in Almazora, Spain, our Spanish Field Depot can perform all OEM-specified field activities, including replacement of all gas generator modules and accessories, auxiliary gearbox and LM116 power turbine. We can also provide field service, spare parts inventory, contract management and lease engine / PT support for our European customers.
