Exclusive Authorized Heavy Maintenance Provider for the Honeywell HTF7000 Family of Engines

The Right Choice

StandardAero's 40+ years of Honeywell turbofan support experience leads the industry with a rapid-response approach to HTF7000 engine service wherever you fly--to deliver lower cost of ownership, peak performance and the best reliability.

With our recently awarded exclusive Heavy Maintenance authorization for the HTF7000-series of engines, StandardAero is the only service provider to offer the full range of HTF7000-series services - Worldwide!

StandardAero also owns our own fleet of HTF7000 rental engines that we can quickly deploy to keep our customers flying when the engines require more than a few days of downtime.

Benefits

StandardAero offers maintenance, repair and support services for the Honeywell HTF7000 engine with four fly-in hangars and multiple 24/7 Mobile Service Teams. These capabilities and our veteran technicians have positioned StandardAero to be a leader in HTF7000 maintenance as more airframes utilize this engine. We currently support the engines on Challenger 300 & 350, the Gulfstream 280 and the Embraer Legacy 450 & 500 aircraft.

We put our customers - and their aircraft - first. We do what it takes to deliver superior service and maximum performance and reliability for your engines and your aircraft.
