### More Support. More Service. More Capability.

At StandardAero, we retain simple core values that set us apart from the other accessory and engine repair centers – we put our customers first, and focus on what is important to them and their business.

Innovation and unparalleled experience with the Pratt & Whitney Canada PT6A engine has helped StandardAero become the trusted service partner for many operators. It stands to reason that, with this experience and responsibility, StandardAero knows the benefit of complete PT6A capability. A big part of those capabilities is having a dedicated PT6A accessory shop ready to serve your needs.

Look no further than StandardAero for all of your PT6A accessory overhauls, repairs and exchanges. Operating out of our one-stop-shop in Summerside, PE, Canada, we are dedicated to reducing downtime and lowering your costs. Our in-house repair capability is the key to providing quick turn-times, while our committed team of engineers and customer service representatives offers the highest level of expertise and service.

Whether your accessories or engines need repair or overhaul, leave them to us, the experts. We will ensure that you receive the best quality products and service every time.

### PT6A Accessories Capabilities

- All PT6A accessories
- Overhaul/repair/troubleshooting (fuel controls, fuel pump, flow divider, start control, manifolds, power turbine governor, propeller governor, overspeed governor, bleed valve, oil to fuel heater, torque limiter, oil filters & P3 filters)
- Small/medium/large engine accessories
- Honeywell AWARS verified facility
- Mid-life inspections
- Functional test in “as received” condition
- Investigations with formal written engineering reports
- Exchange units complete with installation parts - no need to order separately
