Custom Solutions, One-Stop Service

StandardAero is a Pratt & Whitney Canada APS2300 APU Authorized Repair Facility, and as such, our certified APU technicians have completed extensive factory training at the Pratt & Whitney Canada Training Center to give our customers the most comprehensive, experienced service in the industry. Located in Maryville, TN, USA, StandardAero is committed to supporting our customers through a combination of fast turn-times and world-class customer support.

Being the first independent service provider on APS2300 APUs, StandardAero has the ability to offer additional benefits to our customers including:

- Full MRO capability at StandardAero's Maryville, TN facility
- Full access to Pratt & Whitney Canada technical support and documentation
- Full OEM warranty processing
- Full access to the Pratt & Whitney Canada rental bank
- Component Repair & LRU Capability
- Coordinated repair development with OEM authorization

Fast Turns To Get You Back In Service

From our shop floor to the flight line, your APS2300 will be returned to service quickly. To reduce engine downtime, we have optimized the process flows throughout our facilities for maximum efficiency.

Additionally, we focus on developing repair processes to restore your components to OEM specifications, reducing the need for expensive new replacement parts. While your APS2300 is in our shop, one of our dedicated staff will keep you informed about its progress so you can make quick, confident maintenance decisions.

Dedicated Field Service Teams available 24/7

Unlike most MRO providers, StandardAero doesn't pull technicians from the shop floor to assist your AOG event. We have dedicated Field Service Teams who are trained, equipped and authorized to provide troubleshooting, emergency warranty and maintenance services 24-hours a day, anywhere in the world. If you can't come to us, we will come to you!

For AOG situations and emergency troubleshooting, please call us at: **1.865.380.2284**
