

Rolls-Royce AE 1107

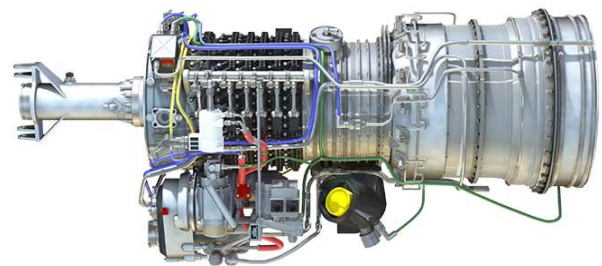

StandardAero is a Rolls-Royce approved AE 1107 Heavy Maintenance Center and a full-service Rolls-Royce Authorized Maintenance Center. In 2018, StandardAero signed a 20-year agreement with Rolls-Royce to provide comprehensive maintenance, repair, and overhaul (MRO) services for the AE 1107, AE 2100, and T56 Series IV engine models. The AE 1107 powers the Bell-Boeing V-22 Osprey and is part of the AE engine family, being closely related to the AE 2100 and AE 3007. In addition to processing over 100 AE 1107 engines, StandardAero has delivered over 1,000 AE 2100 engines and over 6,000 AE 3007 engines.
