The New Standard in Rolls-Royce T56/501D Support

At StandardAero, we retain simple core values that set us apart from the other engine repair centers – we put our customers first, and focus on what is important to them and their business. StandardAero engines provide unequalled reliability and offer the operator the lowest cost per flying hour available, all with the best warranty in the business. StandardAero supports the most diverse range of configurations with assured turn-times to get you back in the air as quickly as possible.

T56/501D Repair Experts. During the 40 years that StandardAero has been servicing of the T56/501 family of engines, we have developed the largest and most diverse group of T56/501 customers in the aerospace industry. Now, StandardAero is responsible for the depot-level maintenance of over half of the T56/501D engines worldwide.

Unparalleled Customer Support. To provide troubleshooting and emergency support when you need it, our “rapid response” customer support team is available 24 hours a day and Field Service Representatives can be on-site within 48 hours. By keeping you informed during the maintenance process, our experts ensure that you make good engine maintenance decisions with ease and confidence.

Firewall-Forward Support and More. Along with our World Best quality T56/501D repair and overhaul programs, StandardAero offers comprehensive QEC, airframe accessory, 54H60 propeller and APU support. We also go beyond repair and overhaul. Upon request, we provide a custom solution to customer needs. We can evaluate your propulsion systems and recommend fleet maintenance activities that will increase your time between overhauls, provide custom tailored training programs, logistics and export support.
