### More Support. More Service. More Capability.

#### StandardAero – The Right Choice

StandardAero is an authorized Rolls-Royce 501K Maintenance, Repair & Overhaul Center, and our dedicated technicians are ready to provide any service you need with efficiency and expertise. Over time, we've developed in-house repair processes for every major component of the 501K engine. Having the option to take advantage of our "repair rather than replace" philosophy is just one of the ways we try to help you minimize the cost of your service.

#### Customized Solutions

StandardAero will custom-tailor a maintenance agreement to suit your operational and budgetary requirements. Whether you're looking to include all engine events or just to cover the scheduled maintenance, we can work with you to design a solution that offers you the maximum benefit.

#### We're There When You Need Us

Our rapid response teams are available 24 hours a day, 7 days a week to provide emergency and troubleshooting support, lease engines, modules and accessories. Our Field Service Representatives can be on site anywhere in the world within 24 - 48 hours.

#### Service, First And Foremost

When a major engine repair is required, dedicated Customer Service and Engineering personnel will guide you throughout the entire process. They will work with you to develop engine build specifications that meet your specific needs. Our team provides continuous updates and ensures that your equipment is returned on time and on budget.
