

## Facility Facts

# Springfield (SPI) Facility

## An Industry Leading MRO Facility

StandardAero's Springfield, Illinois facility houses one of North America's most capable corporate jet service facilities. For over 40 years, this one-stop facility has performed hundreds of modifications, major structural repairs, inspections, interior refurbishments, avionics installations and paint on the world's most popular business jet aircraft. With over 220 employees averaging more than 15 years experience at Springfield, you can be assured that your work will be completed on time and on budget, on every job.

## We Are An Authorized Service Center For:

### Dassault Falcon Jet

- Falcon 7X / 8X
- Falcon 900/All Series
- Falcon 2000/All Series
- Falcon 50/All Series
- Falcon 10/100/20/200

### Honeywell

- TFE731
- HTF7000
- CFE738
- APU

### Pratt & Whitney

- PW305/308

### General Electric

- CF34

In addition, we provide worldclass services for most popular business aviation aircraft manufacturers including: Bombardier, Hawker, and Gulfstream.

## Certification Services

As an alternative to FAA-direct certification services, StandardAero can deliver considerably shorter STC certification times that can ultimately reduce downtime. StandardAero's Organization Designation Authorization (ODA – Certification number ODA-100079-CE) allows us to perform certification work for customers in approved facilities anywhere around the world. Our extensive STC library includes over 1200 certification projects we have completed.

## StandardAero – The Right Choice

StandardAero's Springfield facility is a great facility with friendly experienced personnel. Let us demonstrate our superior craftsmanship and strong work ethic in completing your next event.
