

Lloyd Barker
*Senior Vice President
Engineering & Quality*

Lloyd Barker serves as Senior Vice President, Engineering & Quality. He joined StandardAero in February, 2018 and is responsible for the company's technology development, engineering, quality and environmental functions. He reports directly to the CEO and is a member of the company's Executive Leadership Team.

Prior to joining StandardAero, Barker served as Director, Corporate Quality for Arconic Inc., a \$12.5B company specializing in lightweight multi metals engineering and manufacturing products which are used worldwide in aerospace, automotive, commercial transportation, packaging, building and construction, oil and gas, defense, consumer electronics and industrial applications. In this position his principal responsibilities he led the development of Arconic's global Quality Assurance strategy, providing corporate governance and risk oversight to assure process and product integrity while ensuring compliance with customer and regulatory requirements. Prior to that, he served as Director of Corporate Quality at Alcoa Inc. and previously had been Director of Corporate Quality for Howmet Castings before Alcoa acquired it in 2000. Earlier, he completed a 13-year career with Honeywell Aerospace Engines & Systems (formerly AlliedSignal and Textron Lycoming) serving in the capacity of Director, Supplier Quality Assurance, Manager of Engine & Component Test operations and several other operations management positions.

Barker was appointed by the U.S. Department of Commerce Secretary to serve as a member on the Board of Overseers of the Malcolm Baldrige National Quality Award (MBQNA) in 2016 and has served as an MBQNA Judge for four years. He also serves on the American Society for Quality (ASQ) Juran Medal Selection Committee and the Gryna Award Committee and has previously served on the ASQ Board of Directors. Barker was named an ASQ Fellow in 2015 and he was the recipient of Nadcap's Mayben Platonoff Leadership Award in 2007. He also holds a number of credentials including a Federal Aviation Administration Airframe & Powerplant license, numerous certifications from ASQ and is Green Belt certified.

StandardAero is one of the world's largest independent providers of services, including engine and airframe maintenance, repair and overhaul, engine component repair, engineering services, interior completions and paint applications. The company is a global enterprise that employs nearly 6,000 employees worldwide with annual revenues approaching \$3 billion. StandardAero serves a diverse array of customers in business and general aviation, airline, military, helicopter, components and energy markets. The company celebrated its 100th year of industry leadership in 2011. StandardAero is owned by and partnered with Veritas Capital, a leading private equity firm headquartered in New York City.
