A **DBB** Company

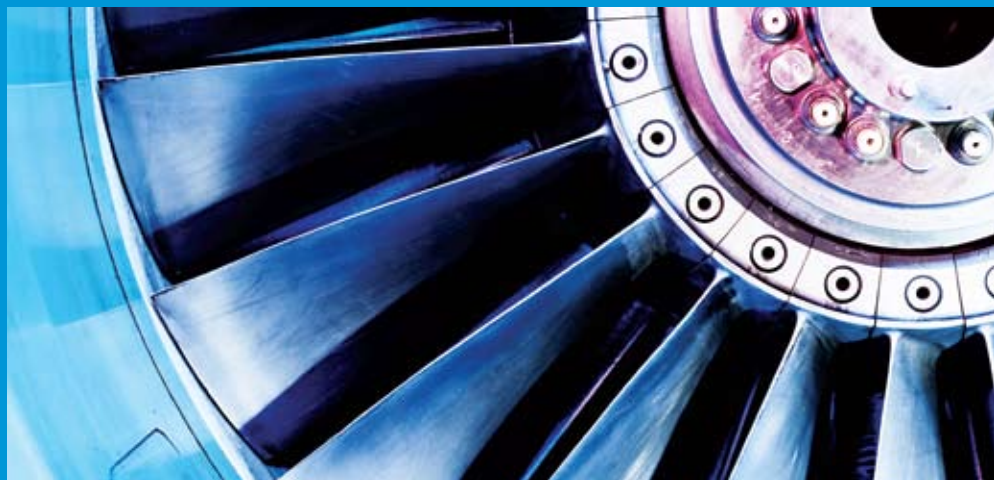

**StandardAero is a world leader in engine repair for commercial and military aviation and helicopters.**

**The MRO branch of Landmark Aviation (formerly Garrett Aviation) is a long-time leader in providing business aviation maintenance**

**Now these two great legacies have come together as the new StandardAero, offering comprehensive MRO services for business aviation customers.**

**StandardAero now has one of the largest networks of MRO facilities in North America. From engines and airframes to avionics and completions, we have the capabilities to perform virtually any project on today's most popular corporate aircraft.**

## COMPLETIONS (PAINT + INTERIOR)

With over 30 years of experience, StandardAero's facility in Springfield, IL offers interior and exterior redesign services, including interior refurbishments and modifications. Our interior designers will work with you to define your vision, create a floor plan and select materials to be handcrafted to your custom design. From ultraviolet curing to protect the woodwork to three-axis machining of parts for strong joints and seamless fits, we make sure that the results are as functional and lasting as they are comfortable and elegant.

Our three-bay, 62,000 square foot paint shops are climatically controlled to ensure a clean application and a glossy finish that can stand up to the most demanding environments. Sit down with our designers to create an eye-catching identity and our artist/technicians will turn that vision into a high-gloss reality.

## AVIONICS

StandardAero has authorized service centers for every leading manufacturer of avionics, allowing you to choose from the widest array of products. From repairing a transponder to installing a Rockwell Collins Pro Line 21 to wiring the latest cabin enhancements such as high-speed data and satellite TV and communications, we have the capabilities to do it all. Our authorizations include: FAA Designated Alteration Station (DAS); FAA Delegated Engineering Representatives (DER); Class 1, 2 & 3 radio and Class 2 & 3 instrument ratings.

## MOBILE SERVICE TEAMS

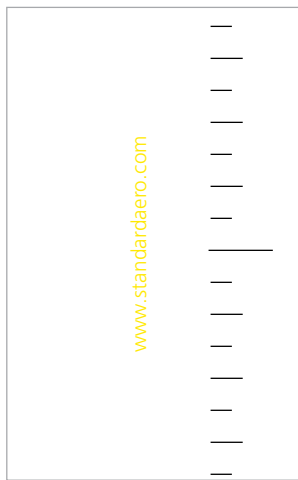

Our strategically located Mobile Service Teams (MSTs) have been designed to provide customers with greater flexibility, while reducing costs and downtime. Whether it's scheduled maintenance or an unscheduled event, we'll deliver our services to you 24 hours a day, seven days a week. The teams are equipped to handle troubleshooting for both engine and airframe, minor discrepancy work (airframe and engine), routine maintenance, engine R&R, and engine maintenance. And, of course, they're backed by StandardAero's major service facilities and quality systems. Phone 877 GO MST 99 or 877 466 7899

## PRE-PURCHASE EVALUATIONS

Because of our comprehensive service capabilities and extensive experience with the most popular corporate aircraft, StandardAero is an ideal choice for performing pre-purchase evaluations. We conduct an evaluations of all primary and secondary airframe structures, major aircraft systems and a thorough review of all the aircraft's records. Plus, if anything comes up, the aircraft is already in the right place for any repairs it needs.

## PARTS

Whether you need to order or exchange an existing part, or are in need of repair or overhaul service, StandardAero provides 24-hour, seven day a week parts support for all your aviation needs. We also offer aftermarket spares support in new and exchange components for airframes and engines. Phone 888 686 4277.
