

GE Aviation CF34-3 & -8 Engine & APU Accessories

Custom Solutions For All Of Your Engine & APU LRUs

StandardAero provides a one-stop shop solution for your engine and APU accessories needs by building a customized program to fit your unique operation. Our certified technicians have extensive training in order to give our customers the most comprehensive and experienced service in the industry.

Why StandardAero?

- Full MRO capability at StandardAero's Maryville, Tennessee facility
- Full access to OEM technical support and documentation
- Full OEM warranty processing for Honeywell and Pratt & Whitney Canada

Our quick turn-times allow you to control your spare requirements and to reduce your downtime. Additionally, we focus on developing repair processes to restore your accessories to OEM specifications, reducing the need for expensive new replacement parts. While your accessory is in our shop or managed by us, one of our dedicated staff will keep you informed about its progress so that you can make quick, confident maintenance decisions.
