

CFM International CFM56-7B Field Service

Your Trusted Service Partner for CFMI CFM56 Engines

StandardAero is pleased to offer a full suite of field service solutions to decrease downtime by providing rapid response maintenance throughout the world. StandardAero is an industry leader in on-wing support, providing qualified experts who have the same technical capabilities, authorizations and quality systems used in our repair centers. This provides customers with greater flexibility, while keeping costs down.

We have Field Service Representatives located throughout the world, supported from our CFM56-7B overhaul facility in Winnipeg, MB, Canada. All of our American & Canadian representatives are enrolled in an FAA-certified random drug and alcohol testing program, and we are Canada DOT, FAA and EASA certified.

CFM56-7B Field Service Highlights

- Full engine borescope inspection with video and report, including SB 72-0515 inspection
- HPC borescope blending
- Accessory gearbox removal & replacement on-wing
- Transfer gearbox removal & replacement on-wing

Global Service Hotline

- +1.204.955.0172

CFM56 is a trademark of CFM International, a 50/50 joint company of GE Aviation and Safran Aircraft Engines (France).
