

Components Overview

More Support. More Service. More Capability.

StandardAero provides component repair and overhaul services that help customers reduce aircraft downtime, cut operating costs and improve engine performance.

Our Commitment

Quality, on-time performance, and best-in-class customer support make StandardAero Components the natural choice for customers who have come to rely on StandardAero for over a century of service to the aviation industry. We have developed productive partnerships with leading aerospace companies. We have been named a preferred supplier on General Electric, Honeywell, Snecma, Pratt & Whitney, Pratt & Whitney Canada, and Rolls-Royce aircraft engines.

StandardAero Components was formed in 2011 to meet our customers' needs for high-quality, reliable, cost-effective component maintenance and repair services. Customer support has been a key driver of the Components business, which has nearly doubled since StandardAero acquired TSS Aviation in 2007.

We rate among aviation industry leaders with on-time-delivery rates above 95% and a commitment to continually improving our performance through the use of Six Sigma and Lean Manufacturing tools and techniques.

StandardAero – The Right Choice

From our state-of-the-art facilities in Cincinnati and Hillsboro (Ohio), Kansas City, Miami, Singapore, and Cork (Ireland), StandardAero Components provides air transport, business aviation, industrial gas turbine, and government and military customers with a wide range of maintenance and repair capabilities, including:

- Special repair processes
- Composite capabilities
- Part capabilities
- Electron beam weld and honeycomb capabilities
- Laser welding, cladding, and cutting
- Platinum aluminide coatings
- Water jet stripping

Kim Ashmun serves as President of the Components & Accessories (C&A) division. In this role, she is responsible for all aspects of the commercial, operational, financial and technical performance of C&A business units and facilities located in the U.S., Canada, Europe, and Asia.

In addition, Ashmun serves as a member of the company's Executive Leadership Team. Prior to joining StandardAero in 2022, Ashmun served as Vice President of Global Supply Chain Operations for Lockheed Martin Rotary & Mission Systems (RMS) Sikorsky line of business. In that role, she led a large team, managing a multi-billion dollar portfolio of ~1,800 suppliers.

Ashmun has more than twenty years of leadership experience in the aerospace industry, working at Lockheed Martin in a variety of technical, program and executive leadership positions. She began her career as a manufacturing engineer for Lockheed Martin Aeronautics with roles in engineering and operations supporting the F-35 program.

Ashmun holds a Bachelor of Science degree in Engineering Technology from Texas A&M University and a Master of Science degree in Systems Engineering and MBA from Southern Methodist University. In addition, she completed Lockheed Martin's Engineering Leadership Development Program and multiple executive courses from Columbia Business School and UC Berkeley Executive Education.
