

YOUR READINESS IS OUR FIRST PRIORITY

## GE Aviation J85

StandardAero offers industry-leading maintenance, repair, and overhaul services for legacy engines, including the General Electric J85 turbojet. The United States Air Force has awarded StandardAero a multi-year contract to provide MRO services for the J85 engines powering the USAF fleet of T-38 trainer aircraft. StandardAero will offer the same high-quality service on the J85 contract as on other multi-year agreements, including the Rolls-Royce T56 engines that power C-130 aircraft and GE F110 engines on F-15 and F-16 fighters.

StandardAero is a worldwide provider of engine MRO, rotorcraft airframe and component MRO, engineering, and support services to global military operators. Our extensive experience, worldwide presence, and quality service help operators worldwide maintain the highest level of readiness and mission success.

### Service Capabilities:

- Engine module repair and overhaul
- Complete test capabilities
- Component repair
- Parts support
- Service bulletin compliance
- Field service
