

# Pratt & Whitney Canada PT6A Field Service

## Your Trusted Service Partner for P&WC PT6A Engines

StandardAero's PT6A field support & service team offers operators superior service and custom solutions, providing a wide range of capabilities for PT6A series engines including major periodic inspections and repairs. Our highly trained and extensively experienced engine technicians are on hand around the clock, seven days a week, to meet the specific needs of PT6A operators around the world, minimizing the cost and inconvenience of aircraft on ground (AOG) events.

We have more than 40 PT6A Field Service Representatives and shop technicians strategically located throughout the world – including in Canada, USA, the Netherlands, Singapore and Australia – to facilitate rapid response times in support of operators. All of our American reps are FAA certified, while our Canadian reps are Transport Canada & EASA certified and are enrolled in an FAA-certified random drug and alcohol testing program.

## Your Trusted Service Partner for P&WC PT6A Engines

Maintenance, Repair & Overhaul

**24/7 Field Service Support**  
Strategically located to support you **wherever** and **whenever** you need it.

With world-class overhaul facilities, service centers and field service reps located across the globe, our knowledgeable team has been supporting PT6A operators for over 55 years.

### Our customers say it best...

“When minutes mattered, StandardAero produced. Something to keep in mind in the future, I think, especially when you have a customer that needs something done right and done fast.”

— Joe Weber, *President of PT6 Power*

“With all of my experience as an aircraft manager and aviator, I have not experienced ANY company with such dedication as StandardAero, they always provide the best support to our mission.”

— Eddie Hale, *Corporate Travel Management*

Exceeding customer expectations is a concept that advances us beyond traditional MRO and embodies the StandardAero culture: a comprehensive suite of support services ranging from field support, engine upgrades, life-extending repairs, accessory repair and overhaul, rental support, logistic support, program management, engine condition trend monitoring, and certification services and training, all supported by a global network of MRO facilities and service centers.
