

YOUR READINESS IS OUR FIRST PRIORITY

Pratt & Whitney F135

StandardAero Defence Services Europe (DSE) offers world-class repair and overhaul services for Pratt & Whitney F135 after burning turbofan engines. With over 30 years of experience and over 3000 Pratt & Whitney engines processed, our team is dedicated to excellence in customer service and product expertise. In partnership with the Royal Netherlands Air Force (RNLAf), StandardAero DSE has established F135 MRO depot activities in a brand-new, state-of-the-art facility in the Netherlands, including full engine test capability to support the growing F-35 fleet operation. Initial capabilities include depot-level fan and power module MRO, with additional capabilities in development.

Service Capabilities:
