

Safran Power Units SPU300

Authorized APU Support for Global 7500 Operators

StandardAero is a Safran Power Units Level III Certified Maintenance and Repair Center (CMRC) for the SPU300 auxiliary power unit (APU), providing the highest levels of support to operators of the Bombardier Global 7500 from its facility in Maryville, TN.

CMRC approval assures operators that they will receive the highest level of service, with our certified APU technicians having completed extensive Safran training on all aspects of the SPU300. Our customers also benefit from the confidence of knowing that their APUs are being serviced with OEM parts and OEM approved repairs.

StandardAero was first appointed as an SPU300 in 2018, making us the only SPU300 Level III CMRC worldwide. Our facility provides a full range of service offerings, including:

- Full maintenance & repair capability at Maryville, TN, USA facility
- Full access to Safran technical support and documentation
- Maintenance & repair support for customers' engines, accessories and line-replacement units (LRUs) under PowerCare contracts
- Time & material (T&M) maintenance & repair support for customers' engines, accessories and LRUs not under PowerCare contracts

Service Excellence for Business Jet Customers

StandardAero has a proven track record in delivering service excellence to business jet customers: we provide airframe service and maintenance for the Bombardier Global Express, Challenger and Learjet families, and support all of the major engine models powering the leading business jets. We also provide OEM-authorized support for many of the APUs installed in the world's business jet fleet.

Rapid Response to Keep You Airborne

From our shop floor to the flight line, your SPU300 will be returned to service quickly. To reduce engine downtime, we have optimized the process flows throughout our facilities for maximum efficiency. While your SPU300 is in our shop, one of our dedicated staff will keep you informed about its progress so you can make quick, confident maintenance decisions.
