**Head Quality and Safety
Abyssinian Flight Services
Addis Ababa, Ethiopia**

Subject: **Approved Maintenance Organization Acceptance**

Reference is made to Abyssinian Flight Services letter Ref AFs/0807/0468/17 dated August 8, 2017 and Abyssinian Flight Services Maintenance Control Manual.

Based on the regulatory requirements of Ethiopian Civil Aviation Authority, the aircraft registered in Ethiopia and its major components shall be maintained in the Approved Maintenance Organization which is either approved by Ethiopian Civil Aviation Authority in accordance with Ethiopian Civil Aviation Rules and Standards Part 6 (Approved Maintenance Organizations) or accepted by Ethiopian Civil Aviation Authority, the organization having been approved by either Federal Aviation Administration (FAA), European Aviation Safety Agency (EASA), Transport Canada, or all.

Hence, having verified that Vector Aerospace Engine Services, a company based in Canada is approved by Transport Canada, FAA and EASA Ethiopian Civil Aviation Authority hereby accepts the aforementioned Approved Maintenance Organization to be utilized by Abyssinian Flight Services for overhaul of its PT6A-114A engines.

Sincerely,

Haish Beyene
